Title of event

“ART, CULTURE & DESIGN IN CREATING CITY VIBRANCY AND STRONG COMMUNITIES”

Organization Details

Organization: KUALA LUMPUR CITY HALL

Organization Country: MALAYSIA

Summary

The Kuala Lumpur City Hall in partnership with Urbanice Malaysia, is committed to hosting a networking event on the theme

“ART, CULTURE & DESIGN IN CREATING CITY VIBRANCY AND STRONG COMMUNITIES”.

This will be a Networking event at the tenth session of the World Urban Forum and will be held on Monday 10th February, from 2pm-4pm at Hall 2, Room 5.

Strong communities and vibrant neighbourhoods are essential elements towards city sustainability; hence Kuala Lumpur City Hall has chosen this topic to be discussed and shared so that we may learn more from other cities of the different approaches so as to enrich ourselves with greater knowledge.

This networking session offers a forum for developing cross-sectorial and interdisciplinary cooperation between cities and the private sector tackling issues of social sustainability. The session will highlight cross-sectorial approaches in fostering social, environmental and economic goals through communities in cities. Amongst others, the session aims to:

- i. To share ideas and experiences of culture, art & design projects and programmes in cities and towns that have been proven to create stronger communities and add to city vibrancy;
- ii. To share the challenges and issues faced and how these were addressed;
- iii. Sharing of project management approaches and partnerships, if any;
- iv. Challenges faced in the digital world;

The session will focus on the importance of partnerships in the arena of culture and the arts in the implementation of the SDGs and NUA. Leadership in city management and effective co-management are imperative towards building up partnerships between communities, private sector, professional organizations and industry players. Collaboration in sharing new visions and creating opportunities for communities require multi-disciplinary approaches and an end to the silo mentality and approach common to many organizations and especially at local authorities. Join City Hall Kuala Lumpur and Urbanice Malaysia for a session on the power and importance of culture – the arts, music, tradition of peoples, diversity and ethnicity of people, etc. - to generate opportunities in achieving the SDGs and the New Urban Agenda (NUA), especially in the emergence of sustainable communities in our cities.
