

Event Details

Title of Event

Leveraging City Diplomacy to Achieve the SDGs

Organization Details

Organization: Chicago Council on Global Affairs

Organization Country: United States of America

Summary

“In an era of systemic crises, the SDGs are the best embodiment of global collective agreement for how to move forward. Through city diplomacy, cities can adopt best practices, overcome challenges, and advance initiatives that work.” Join this SDGs in Action session to: - Learn about research on Global Goals, Global Cities: Advancing the SDGs through Collective Local Action, which summarizes the unique strengths, challenges, and opportunities of cities and their strategic partners - Discover new analysis on city diplomacy and how cities worldwide are building capacity to manage and prioritize international strategies and effectively navigate global platforms - Understand how cities, such as Quito, have developed tangible solutions, integrated the SDGs in their city plans, and leveraged city diplomacy to achieve their goals
